

Background Briefing

For those who care about the human future.

All the confused talk and violence: what does it mean?

First:

Dr. Al Sears; Quote: "...

The pharmaceutical giant Wyeth is being sued over its synthetic hormone drugs Premarin and Prempro. They [those suing] are alleging the drugs can cause cancer and heart disease.

During the discovery process, they uncovered a scam. And what a doozy this scam is! Wyeth paid ghostwriters to create scientific review articles. These articles were then published in leading medical journals. And these articles are full of misleading data that led doctors to believe they were safe.

Doctors prescribed these medications and women died as a result. Here's how Wyeth's deception worked: The ghostwriters wrote the journal articles. The articles touted the benefits of synthetic hormone replacement therapy. And downplayed all the risks. Serious risks, like invasive breast cancer, stroke, heart disease and even dementia.

Then, the ghostwriters paid top physicians to sign their name as the author of the article. It didn't matter that the physicians hadn't contributed anything or very little to the writing or scientific review of the available studies. And the doctors didn't know that the drug company was paying for the study.

The final versions of these articles didn't mention Wyeth's financial ties. Even the respected journals that published them had no idea.

The plan worked. Doctors rely on medical journals. As a result, thousands prescribed synthetic hormones to their patients, thinking it was perfectly safe. It's no wonder sales of Premarin and Prempro spiked to almost \$2 billion in 2001. At one time, Premarin was the #1 moneymaking prescription in the U.S.

If you can't trust the medical journals, what are you left with? I've always been skeptical that drugs are the only answer. I always ask myself these questions: What did nature intend?" End Quote.

Well there you have it. Those mean-spirited people are rarely brought to account, having such power and wealth they get careless but few honest citizens take up the fight on behalf of the human family. Globalist confidence is justified; even if exposed, we, in our great majority, seem now too dumbed-down to defend ourselves even when social abuse is obvious.

Will this change? To understand why activities such as mentioned above are allowed, even encouraged, first learn basic logic. The conniving of generations cannot be exposed and explained in a single sentence.

Though I understand the problem I still find it hard to accept that humans may fail to retain sufficient intellectual morality and logical ability to see that evidence such as above is serious enough to awaken their natural survival instincts.

When the system and government becomes so ineffectual, and the community so uncaring of itself that the authority of its leading literature can be corrupted virtually at will, then, as a culture, we have obviously been stripped quite bare of our human moral defences. Surely we are still able to see and understand this! I work on that assumption...

Greed knows no limits; boundless wealth is not enough. Globalist greed turned to accumulation of power and when they saw that THEIR earth was becoming over-populated and THEIR resources destroyed, their intent became directed to owning the earth and to enslaving those of its inhabitants who might be useful as servants or for experiment.

Obviously the prospect of explaining the problem to gain a human solution did not suit the mean minded.

For them it was then a simple step to learn how the human mind works and use this for subversion and take-over. After all, if you can control governments in the most advanced nations then all else may seem almost irrelevant.

\

So HOW WAS it DONE?

Well that's the story of "Hegelian Dialectic".

The roots of Hegelian dialectic grow from a power principle called "Divide and Conquer", also known as: "playing both ends against the middle".

For real kick-in-your-teeth contempt it now includes a division called "Outcomes Based Education".

Originally exposed as a socialist principle this was not connected in the more democratic mind with 'free' Capitalism. But of course Capitalism and Communism was the first big divide in the "divide and conquer" plan. This set the pathway for the following:

Humanist ambitions: humanism, as a name, is clearly in pretence of "human".

This is no childish schoolyard game! There is no public evidence that the largest Secret Service ever assembled is in that service but this vast economic force (ruling national philosophies and governments) has no use for military might, so it is entirely irrational to imagine that Globalism does not employ an army of professional "People Shapers" to indoctrinate deformities, integrate rumours and reshape truth. All as needed to balance their divide and conquer programs and give credibility to humanism's pretence.

The Hegelian Dialectic Principle:

Thesis, Antithesis, Synthesis!

Thesis is any idea (it may be factual).

Antithesis is opposing argument.

Synthesis is the designed outcome!

The game is to restrict opponents to a futile stubbornness; then manipulate blind futility to accept the outcome desired by those behind the program. As is now plain to sight Globalism creates problems, then generates solutions to its advantage.

Evidence shows that, by trickery and threat, Globalists have ruled our corrupted national governments for well over 100 years. You may find that hard to believe but if you love truth, you will find the evidence on site leaves you beyond logical doubt.

This vast interlocking system could not form without planning!

1. How many today have a basic understanding of Global Warming (its origin and potential)?
2. Of the Natural value of money (finance)!
3. Of legitimate Democratic Politics (Immorality of Party Politics)!

Or anything of importance to human culture! The basics of culture and education are not quantum science; these matters can be understood from information on this and associated sites!

Without the deforming force of Hegelian Dialectic we could never descend to present depths of inhumanity.

Increasingly biased education has needed 100 years of dumbing-down to bring humans to take sides in blind partisan support of what we now selfishly value as "our side". Unfortunately that is what most now do!

Except for this, Globalism's philosophy of deceit could never achieve or maintain power.

A free human mind appreciates that moral human social behaviour is a human essential – something comfortably within our natural ability. Nevertheless bankers and financial planners embraced a system of obvious confidence trickery: a trickery leading to human consequences that, obviously, were without visible conclusion.

So if the Hegelian Dialectic is not operating and if most people do not now believe that they, basically, are animals created by chance; why do you think that there is continual discussion and fierce loyalty without resolution or understanding – my football team; my political party; my take on Global Warming – don't talk about truth, justice or mercy; what has that to do with anything; my ideas are me? My dogmas, are my heart and soul! Winning is our game! I AM animal! I AM my desire!

Sides-taking loyalty is a primitive survival instinct that is now 'un-naturally' encouraged through party politics, professional sport; etc. Sides' taking is for easy avoidance of understanding; it is an essential force in Hegelian Dialectic control. Combine with dumbing down of logic; what do you get? Confusion, frustration and violence!

Yes climates do change continually; change creates erratic violent weather with proven capacity to decimate population on this overpopulated and overstressed earth even without our help!

Only when we see that both sides are misled in order to achieve dominance by a third party do we look for what neither side tells us. Only then do we appreciate that earth changing cycles may extend over millions of years even without that human intervention which upsets balance and returns massive pollution to the air.

Were these sites the only ones to explain this?

So, having danced happily up the garden path for gain of animal pleasures, can we challenge this DEATH TRAP with the intelligence we were given? Can we accept our responsibility for life and not submit to emotions' dead-end? Can we accept that Christian Revelation warned of this? Political reform is in our hands, ignore those who complicate issues. Life is for living in simple practicality. If it is established, true democracy will prove a safe system of government.
